Permaculture Documentary Screening Event

Date : 27 april 2023

Hirav-The Green Campus society of Ram Lal Anand College organised a permaculture documentary screening event on 3rd april 2023. Theme of the documentary was permaculture which simply means- the development of agricultural ecosystems intended to be sustainable and self-sufficient.

The Documentary was very enlightening insightful and it taught how the process of agriculture can be made nature friendly without intoxicating our soil.

Around 55+ students attended the event and gained knowledge about an interesting and sustainable type of farming which will be game changer in the contemporary scenario of chemical based farming which harms the land and ultimately the living beings.

So a big thanks to all the participants and all the best for your future endeavors.

Glimpses :

Our precious Feedbacks :

Very innovative and important session, enlightening us about Permaculture. Thanks you for the session.

-Kaushiki , B.SC (H) Microbiology

Surely a very knowledgeable seminar, felt good to attend this and also a very amazing one indeed.

-Nandini , B.SC (H) Geology

Documentary is sharing truly real facts. Farmer should get their look on these videos. Educative and informative

- Ishika, B.A PROG.

Learnt the problems of the farmer , knew about connection between ecology and agriculture.

-Sameer Singh , B.A PROG.
