TO WHOM IT MAY CONCERN

15th June 2022

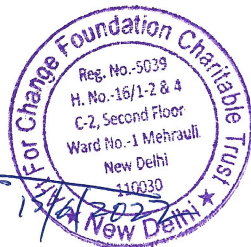

With this letter I congratulate and am pleased to recommend The Finesse Studio Enactus RLAC initiative, in light of the excellently organised 'Hands-on-Wheels experience' at the pottery workshop conducted on June 11th, 2022, at SAMADHAN, New Delhi.

It was our pleasure to work with the team as they completed their first multi-slot workshop. The project was completed as the Finesse Studio commitments run parallel to Art for Change Foundation and Samadhan's collaborative commitments to support artists and give opportunities to the most vulnerable of artists to teach to build skill and create direct income generating possibilities. This initiative by the Finesse Studio directly helps and supports the potter community of Uttam Nagar, Kumhar Colony in their off-season time by prioritising their hand skills as a resource to earn a living. Art for Change Foundation is grateful to have engaged with the Finesse Studio team and provided guidance and support for the same project.

It is an immediate honour and matter of pride to be associated with The Finesse studio through the Art for Change Foundation. The team is gifted and has demonstrated an unusual combination of sensitivity, sincerity and social awareness with the vision and ability to manage and execute on such scalable programs. I thus express hope for the best opportunities and extend our best wishes for all their future endeavours.

Thanking you,

Yours sincerely,

Isaac T. Gergan.
